

COVID-19 Emergency Response

World Vision

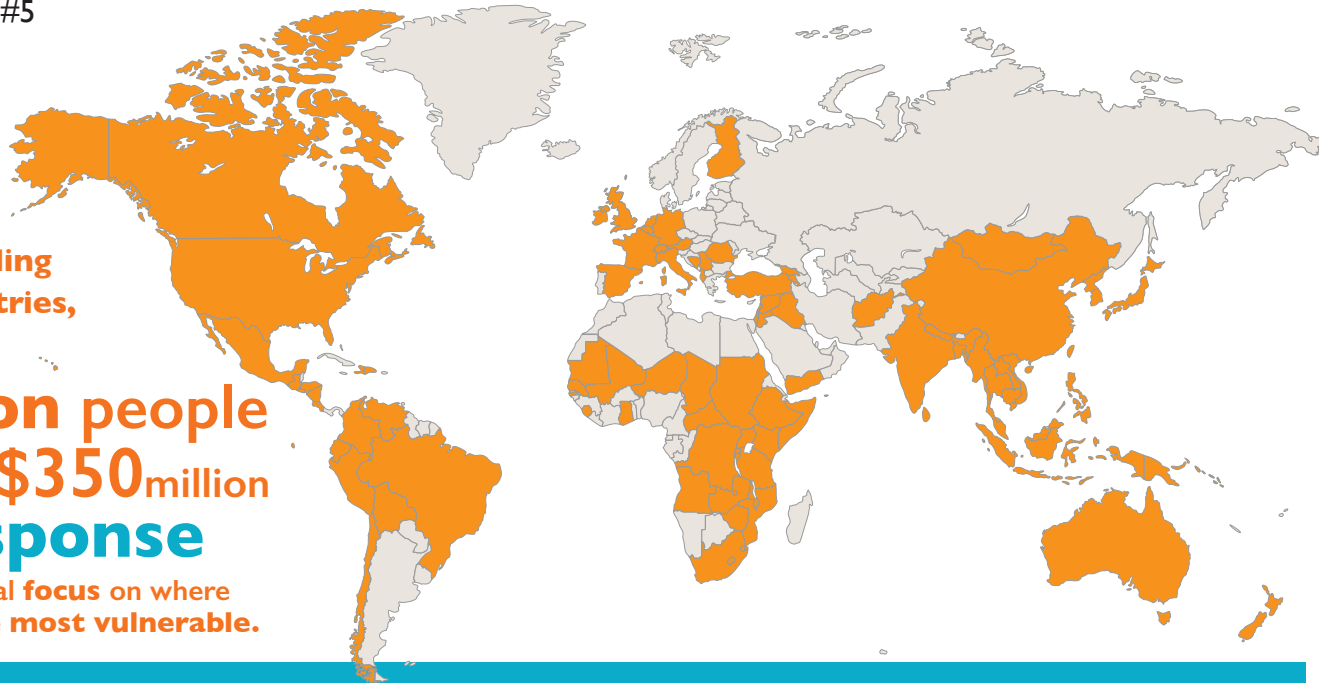

World Vision's Key Concerns

Situation Report #5
April 23, 2020

We are responding
in over 70 countries,
aiming to reach

72 million people
through a **US\$350 million**
response

with special focus on where
people are most vulnerable.

RESPONSE GOAL

To limit the spread of COVID-19 and reduce its impact on vulnerable children and families

Strategic Objectives

Scale up preventive
measures to limit
the spread of disease

Supporting
health systems
and workers

Support for children
impacted by COVID-19
through education,
child protection, food
security, and livelihoods

Collaborate and
advocate to ensure
vulnerable children
are protected

PROGRAMME REACH:
7,035,725 people

as of 16 April 2020

Men **1,951,366**

Women **2,146,468**

Children **2,937,891**

Boys **1,453,782** Girls **1,484,109**

We urge the world to unite to focus on the most vulnerable children, especially refugees and displaced children

Secondary effects of the crisis on children are putting at least 30 million children's lives at risk, but there are things we can do now to help ease the risks

Children will need special support now – including psychosocial – to reduce anxiety and stress during and after this crisis

When disaster strikes, we are active on the ground, quickly providing immediate support

Joining hands with faith and community leaders is critical to strengthen preparedness, to effect behaviour change and to protect children

With more than 37,000 staff – mostly local community-based workers – we will uphold our commitment to staff well-being
